Web Developer, Dental Affiliate, San Diego, CA
4/1/2016 to 7/1/2016 (Contract Position)
- While working at Dental Affiliate, I was tasked with maintaining and upgrading existing websites for the company. I built new websites using Wordpress for new clients while interfacing with them to ensure they were happy with the product. The main tools I used during my tenure was Pivot theme,Photoshop, Bootstrap CSS Framework, CPanel editing, and editing PHP scripts.

Web Developer, Acrendo Medical Software, San Diego, CA
4/01//2015 to 1/01/2016 (Contract Position)
- While employed with Acrendo I was tasked with working on a new mobile app design for doctors to use on the go. The App was a hybrid based design implementing HTML, CSS and merged with the current Database Acrendo used for its clients. Also during my tenure, I was tasked with rebranding the company to ChartPerfect and working with the CEO to build a new website using HTML, CSS and JavaScript frameworks, including JQuery and Angular.JS. The Objective of the new site was to add a new updated feel using bootstrap as the CSS framework and adding superior SEO for site visibility.

Web Developer Intern, Runningfish Design, San Diego, CA
1/10/2015 to 3/01/15
- During my internship, I worked with fashion designer clients and interfaced with them on a daily basis to build their ecommerce websites. I used Wordpress themes such as Divi to build web pages that they requested. I also ensured stability and SEO was functioning properly so the client would be generating good revenue.

Web Developer Contractor, Macht Development Group, San Diego, CA
8/15/2014 to 1/1/2015
- Installed and configured several linux, Apache, MySQL, PHP servers.
- Created supporting databases using MySQL.
- Configured WordPress installations.
- Constructed custom video management platform and associated analytics dashboard.

Network Operations Contractor, Robert Half Technology, San Diego, CA
5/1/2014 to 8/1/2014
- Troubleshooting customer connectivity issues. Provided customer support.
- Monitored facility with hourly checks. Created how –to wikis on internal website for other NOC staff.
- Set up switched network for new office space.
- Set up biometric scans for new customers to allow access to facility.
- Handled new customer accounts sheets. Assisted with customer request via internal customer portal page.

- Provided hands on services to customers such as restarting servers and setting up remote connections.
- Null-routed several DOS attacks and packet captured offending IP addresses to report to clients being affected.
